8. Product Features

7. Setting Menu

One Touch Fingerprint Access Secure one Touch Live fingerprint detection for personalized access. Unique Sensor not only provides high security but faster unlocking experience as well.

Yale Access App · · ·

Yale Access gives you the peace of mind of knowing who and what you love is safe - no matter where you are- just at the touch of your smartphone.

Smart Touchpad - Auto Lock · · ·

The door Locks when you touch the palm on the keypad.

3 minute Lock Out Feature · · After five (5) unsuccessful attempts of an invalid code or fingerprint, RFID key tag lock out

mode is activated for 3 minutes.

When entering a pin code on the keypad, the user can open the door lock in silent mode.

Security enhancement to enter any number before or after entering a password to prevent the PIN code from being exposed.

Internal Forced Lock

It is a security-enhancing function that 'disables' authentication methods such as passwords, RFID key tags and fingerprints from outside when setting up functions indoors.

External Forced Lock It is a security-enhancing function that an alarm goes off if someone opens door from inside when setting up functions outside.

Voice Guidance It guides you through the operation status on how to enable various features & settings-mode for easier and more convenient use.

Other features and Benefits

- Remote Controller (Optional): This option may not be available depending on your country or local dealer.
- Network Module/Controller (Optional):
- It allows door lock to connect with Home network controller
- Intrusion/Broken Alarm.
- · Low Battery Alarm and Emergency Power Supply.
